

Fully Synthetic Hypoid Gear Oil (GL5) LS SAE 75W-140

Description

Fully synthetic hypoid gear oil for the most extreme conditions. Specially developed for use in axle drives with and without limited slip differentials. Contains selected additives which offer outstanding EP properties and also alter the frictional coefficient between the clutch plates. This prevents stick-slip and the judder that this causes. Fulfills the special requirements of well-known vehicle manufacturers such as BMW automobiles.

Properties

- outstanding corrosion protection
- excellent wear resistance
- reduces running noise
- high pressure-absorption capability
- excellent viscosity/temperature properties
- excellent resistance to aging
- for extended oil-change intervals
- very compatible with seals
